**REPORTS:**

**Director’s Report**

Mr. Gardner reported on the meeting of the South Peoria Study (portion of the Study south of 51st Street) which was held September 22, 1992. Mr. Gardner advised the meeting was well attended and it appears the apartment operators and residents in the area of 61st and Peoria want to work together on common problems. A good part of the discussion revolved around how they might do a better job screening renters who cause problems for the area. The next meeting will be held at 7:00 P.M. October 27, 1992 at the Southside Police Station.

PUD 347-5: Minor Amendment - Fairway Park Amended

The applicant is requesting a revision in the permitted uses from detached single-family dwellings to attached single-family dwellings on most of the lots in Fairway Park Amended. PUD 347 was originally approved with various development areas allowing zero lot-line patio homes (attached by garden walls); attached single-family dwellings with two units attached by a common wall along a lot line, and townhouses. A subsequent minor amendment reduced the density of the PUD from 175 to 132 dwelling units and changed the permitted uses to detached single-family dwellings with 5’ side yards and 50’ wide lots. The applicant does not wish to increase the existing number of dwelling units or re-plat any of the lots, but to be allowed to build attached single-family dwellings with the two units sharing a common wall on a lot line. The other side of the units would have a 5’ yard.

At present there are 19 detached single-family dwellings existing or under construction in the subdivision, and there are no attached, duplex or townhouse dwellings in the surrounding subdivisions.

Staff examined the location of existing single-family detached dwellings in and around the PUD and the location of lots which because of easements could not accommodate attached dwellings. This minor amendment, if approved, would produce a mixture of attached and detached single-family dwellings throughout the PUD. In the past it has been the policy of the Planning Commission to approve a more homogeneous style of dwelling units within a single-development area. This amendment would produce a significant deviation from that policy.

Therefore staff recommends DENIAL of minor amendment PUD 347-5.

Chairman Doherty announced a request for continuance has been received and advised of discussion among the Planning Commissioners as to whether this item should be considered a major amendment.

Mr. Parmele reported attending a neighborhood meeting September 19, 1992 with District 8 Co-Chairs, Councilor Hall, and many residents of the area. Mr. Parmele deems the use and request is substantial enough to warrant advertising as a major amendment. Mr. Parmele pointed out Staff is recommending denial of the minor amendment and noted that area residents may wish to work with the developer in an attempt to reach agreement on this project. Mr. Parmele announced that area residents will hold additional meetings for discussion among the neighborhood associations in District 8 and plan to attend the public hearing with a consensus, if one can be reached.

Discussion ensued over this item going in the opposite direction of compatibility of uses. It was the consensus of the Planning
Commission to declare this item a major amendment and process accordingly.

**TMAPC Action; 8 members present:**

On **MOTION** of **PARMELE**, the TMAPC voted **8-0-0** (Buerge, Carnes, Dick, Doherty, Horner, Midget, Parmele, Wilson "aye"; no "nays"; no "abstentions"; Ballard, Broussard, Neely "absent") to **DECLARE** PUD 347-5 a Major Amendment and instructed **Staff** to process accordingly.
